

COOL  
*Neutrals*

WARM  
*Neutrals*

Understanding the concept of colour temperature is crucial for a cohesive interior design aesthetic. COOL COLOURS, with undertones of blue, violet, and green, create a tranquil ambience, while WARM COLOURS, like red, orange, and yellow, add warmth. Harmonising your interior involves choosing paint shades that complement your furniture and flooring. Whether you're drawn to earthy tones for Japandi and Boho styles or soothing hues for Scandi minimalism, knowing colour undertones guides you to the perfect palette. Scan our QR code for insights on selecting the right undertones for your space.
